About This Software

Awakening is powerful rapid application authoring tool for efficiently creating interactive 3D content. With it, you can easily creating eye-catching interactive 3D presentations, animated 3D web, brief film, game...

Awakening 3D solution include three modules: Scene Editor (Awakening.exe), Scene Player (WindsPlayer.exe) and Web3D Player (supports IE & Firefox family).

Awakening presentations are typically used for making short movies, product and architectural visualizations, e.g. for sales, support and e-learning purposes, or, for product branding or prototyping.

* Compact & flexible runtime，you can custom features by c++ sdk, or extend script functions.

* You can still use Fixed Function Pipeline to get high-performance rendering on low-end video cards, this features especially useful in VR (VR will be supported soon).
