i have tons of the dlc but it says it's downloaded but i dont know how to access it, iv tried redownloading the game and reinstalling it and what not even made a new project but nothing new is in my game.. I've purchased and downloaded this but it's never given me hte DLC. It says it's installed but nowhere to be found among the other DLCs for MV I have. I've tried verifying game files, rebooting and everything. I'm just not getting why it won't give me the DLC I've paid \$9.99 for. :V. Well, after some clarification from a forum member, I can redact a lot of what I said and make this review a more positive one. First and foremost, this DLC does NOT have Alex's SV_Actor. Instead, he's hidden away in the RTP. The rest of the DLC returns a good batch of the old RM2K heroes, converted to MV format, including old RTP facesets + MV style ones. The busts are also well done. This DLC resource can now receive the upvote it deserves. Hopefully they'll consider a second pack that has the other 15 RTP characters.. I was holding off my review till the developer fixed the problem, mentioned in the other reviews, which they did. On inspection it looks great, and it brings nostalgia of days with RPG Maker 2000/2003 where I would try to make an epic story! I can bring back some old character ideas from my previous unpublished works. I'm pretty stoked.

Wasn't worth the trouble, but, meh. I didn't truly notice what was missing until the day before the fix so who am I to complain.

I am merely reviewing to clarify it has been fixed, for those who want to buy it.. Broken DLC. Does not install. Says "installed" as soon as you check it, but steam never downloads it. The DLC does not appear in the DLC folder. Needs to be fixed ASAP.

-WARNING-

If you already own Season Pass DO NOT BUY THIS DLC!!!

Degica selling multiple DLC here and steam store system can't detect the same content being sold twice

Don't repeat same mistake like what I did. I buy this and forget to check the content then I can't refund because I buy this more than 2 day.

This issue is same with VXA DLC. You must ALWAYS check all VX Ace DLC you own because they resell it on MV too.

I usually buy DLC without checking because I have a dream to COMPLETE all DLC list on the store, But suddenly I realize they have SAME DLC List.

I warn you to always check the DLC you own for VX Ace and MV.
